

Dometic miniBar.

First choice for more than 80 years.

Dometic RH 440 LD/LG

- Best value for money
- Fuzzy Logic electronic
- 50% reduced energy consumption
- Automatic defrost
- Noiseless absorption technology
- ISO 9001/14001 certified
- CFC and HCFC free since 1994

Dometic RH 440 LD/LG. The economic solution for your hotel. The Dometic RH 440 is one of the world's best-selling miniBar. And there are many good reasons why. More than 80 years of experience in refrigeration technologies is just one. Thanks to absorption cooling, the RH 440 is noiseless in operation – leaving your guests undisturbed. Moreover, it provides maximum reliability and the longest life time when compared with other absorption minibars available in the market. And all these at low energy consumption – a significant cost factor for hotels. All in all, the Dometic RH 440 is an investment that pays back. Convince yourself of the very favourable price/performance ratio of this miniBar!

Installation tip. If you consider integrating a Dometic miniBar into your hotel room furniture, you should never forget that the cooling unit needs fresh air! The sketch shows you how to integrate and ventilate a miniBar. The open section at the bottom and top of the furniture must be at least 200 sqcm. Also make sure that unhindered airflow around the cooling unit is provided.

Fuzzy Logic energy saving is featured in the RH 440 miniBars. A unique invention which guarantees stable cooling performance at lowest energy cost over decades.

*According to ISO 7371 with 25°C ambient and 7°C interior cooling temperature.

Minimum energy consumption. Dometic always comes out top! Your benefit: Lowest operating costs for absorption minibars. Put us to the test and compare Dometic certified test results to other minibars' certified test results. Dometic miniBars will always score the lowest energy consumption ratings. Dometic miniBars will save your hotel up to 50% on energy costs.
