

■ Dometic. The Satisfaction Network.

Success based on more than 80 years of experience

Noiseless refrigeration technology is the backbone of our position as the world's leading supplier of hotel miniBars. The 'secret' behind our success is a unique combination of specialist know-how, state-of-the-art technology, pioneering spirit, and innovative design.

Drawing on decades of experience and the continuous feedback from customers all over the world, we have led absorption miniBar technology to perfection. Today, more

than 80 years after the invention of the absorption technology, Dometic miniBars are still leading the way in terms of quality, technology and design. More than 4.5 million units have been sold so far – an unrivalled track record. The Satisfaction Network as it stands today covers almost 100 countries and provides personal customer support on all continents.

Some facts worth knowing about Dometic Hotel Systems

- More than 40 years of experience in the hotel industry
- More than 4.5 million miniBars installed worldwide
- Quality made in Europe
- All Dometic production sites certified to ISO 9001 and ISO 14001
- Global customer support: Dometic companies and business partners in 100 countries
- A comprehensive product range: miniBars for any room design, all kinds of guests, every demand and budget. Plus: hotel safes, professional wine storage cabinets and extended stay hotel equipment
- R&D, manufacturing, quality control, after-sales-service – all out of one hand

“We don’t sell just fridges. We sell added value.”

We see our role not in selling miniBars [and other hotel products] but in providing integrated solutions for professional and profitable in-room marketing. From choosing the right products to competent on-site advice and tailor-made financing solutions – we support investors and hotel managers all the way, in the effort that their investment becomes an immediate success. We can do this because we have everything in-house. Research and development, manufacturing, quality control, customer support – all essential work is performed by Dometic employees, and long-term business partners.

■ Leading in innovations

Dometic – the no.1 miniBar company ... and more

If you don't move forward, you'll fall behind. This applies to our business as well as to yours. Dometic, true to its heritage as the industry's leading innovator, continues to launch new products and design concepts to give your hotel a cutting edge over your competitors. Here is an overview of the most recent Dometic innovations:

- The first ZigBee based wireless automatic miniBar
- The only miniBar featuring Cooling Unit Control [CUC system] for absorption miniBars
- Certified lowest energy consumption for absorption miniBars
- iAudit and webREOS security systems for in-room safes
- Service wine cellar with several temperature zones

■ Dometic Hotel Systems – Environmentally focused

Dometic miniBars use a natural refrigerant, a solution of water and ammonia. They work noiselessly, so they do not disturb your hotel guests. Made of CFC- and HCFC-free materials, they are unobjectionable even in terms of ozone depletion and global warming potential [ODP/GWP]. Featuring the patented Fuzzy Logic system, they have the certified lowest energy consumption of all absorption miniBars. Dometic miniBar factories are the only ones to have both ISO 9001 and ISO 14001 as well as the EU Eco Audit. Dometic has gone through an EMAS certification scheme and communicates environmental savings by the Dometic Environmental Product Declarations.

Naturally, environmental protection is not only the responsibility of the corporate management. All Dometic employees are committed to reducing the environmental impact

to a minimum – during production and all the way through to recycling. Together with another company Dometic has developed a unique recycling system for absorption miniBars, which is used worldwide.

All Dometic Hotel Systems products fulfil the European Union ROHS directive.

■ Dometic Classic Line miniBars

Economic convenience

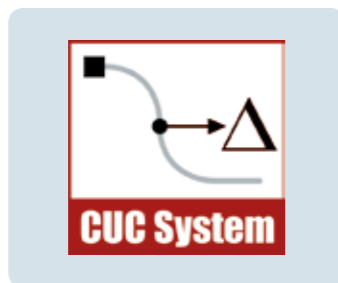

Based on absorption cooling, Dometic Classic Line miniBars work noiselessly and require no maintenance whatsoever. Which means making your guests extremely comfortable while keeping your service budget low. Thanks to the patented Fuzzy Logic temperature control you also benefit from drastic energy savings. Regardless of whether you prefer the wide glass front or changeable decor panel, the built-in or free-standing version – the anthracite miniBars of the Classic Line blend harmoniously with any interior. Available in three sizes – 23, 30 or 40-litre classes.

Dometic means full satisfaction. For our customers – investors and hotel managers – as well as for your discerning guests. It is for good reason that Dometic has been the partner of the world's leading hotels for more than 40 years now.

- **Fully silent absorption cooling**
- **Built-in or free-standing**
- **Fuzzy Logic temperature control for low power consumption**
- **Sensor-controlled surveillance of the cooling unit [CUC system]**
- **Automatic defrost**
- **Door with changeable decor panel or sliding hinge or glass door**
- **Efficient and eco-friendly insulation – no CFCs or HCFCs**
- **Certified to ISO 9001 and 14001**

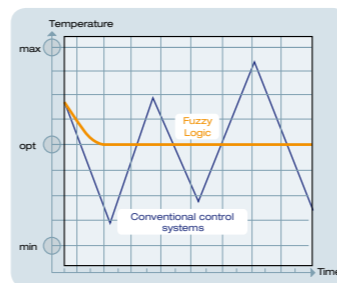

Optional extra: LED door opening control system with remote control

Reliable operation at all times: sensor-controlled cooling unit surveillance [CUC system]

Perfect presentation with energy-saving technology: infrared sensor controlled LED interior light

Fuzzy Logic control: for optimised temperature management and low operating costs

■ RH 423 LDA

23 L – standard door

Compact and adjustable: the RH 423 LDA can be used as a free-standing miniBar with 40 mm feet or fitted into a piece of furniture with 12 mm high screw-down feet included with each unit.

Configuration

- 1 interior door rack for mini-bottles, with adjustable bottle separators
- 1 adjustable metal shelf with cut-out for long-neck bottles
- 1 covered ice tray
- Infrared sensor controlled LED interior light
- 40 mm feet [including set of 12 mm screw-down feet]

RH 423 LDA

Capacity [litres]	23
Dimensions [H x W x D mm]	465 x 425 x 384 [free-standing] 437 x 425 x 384 [built-in]
Input [watts]	75
Consumption [kWh / 24 h]	0.8 according to ISO 7371 at 25°C / 7°C
Cabinet	Built-in or free-standing Anthracite steel cabinet
Door	With sliding hinge or door decor panel

Options

- Lock
- Left or right door hinge
- LED door opening control system with remote control
- Door decor panels

■ RH 423 LDAG

23 L – glass door

Enticing insights: the glass door version. The infrared sensor controlled LED casts an attractive light upon the bar offerings. And, of course, the RH 423 LDAG can also be used as built-in or free-standing unit.

Configuration

- 1 adjustable metal shelf with cut-out for long-neck bottles
- 1 covered ice tray
- Infrared sensor controlled LED interior light
- 40 mm feet [including set of 12 mm screw-down feet]

RH 423 LDAG

Capacity [litres]	23
Dimensions [H x W x D mm]	465 x 425 x 384 [free-standing] 437 x 425 x 384 [built-in]
Input [watts]	75
Consumption [kWh / 24 h]	1.0 according to ISO 7371 at 25°C / 7°C
Cabinet	Built-in or free-standing Anthracite steel cabinet
Door	Glass door with aluminium frame and magnetic door seal

Options

- Lock
- Left or right door hinge
- LED door opening control system with remote control

■ RH 439 D / LD

30 L – standard door

30-litre-class cooling capacity for your discerning guests. Flexibly adjustable racks and shelves for bottles, cans and mini-bottles, plus a tray for ice cubes. Available in two versions – with or without sensor controlled LED interior light.

Configuration

- 1 interior door rack for mini-bottles, adjustable in height and depth
- 1 interior door rack for up to 1.5-litre bottles, adjustable in depth
- Both interior door racks with adjustable bottle separators
- 2 metal shelves, adjustable in height and tilt
- 1 covered ice tray
- 40 mm high feet [including set of 12 mm screw-down feet]
- Infrared sensor controlled LED interior light [RH 439 LD only]

RH 439 D / LD

Capacity [litre class]	30
Dimensions [H x W x D mm]	552 x 380 x 434 [free-standing] 524 x 381 x 434 [built-in]
Input [watts]	65
Consumption [kWh / 24 h]	0.7
according to ISO 7371 at 25°C / 7°C	
Cabinet	Built-in or free-standing Anthracite steel cabinet
Door	With sliding hinge or door decor panel

Options

- Lock
- Handle
- Additional miniature rack
- Left or right door hinge
- LED door opening control system with remote control
- Glass door

■ RH 439 LDAG

30 L – glass door

Seductive presentation behind sparkling glass: 30-litre-class capacity for bottles, cans and mini-bottles. The interior light adds attractive effects. Highly flexible inside for tempting product presentation.

Configuration

- 2 adjustable metal shelves
- 1 covered ice tray
- 40 mm high feet [including set of 12 mm screw-down feet]
- Infrared sensor controlled LED interior light

RH 439 LDAG

Capacity [litre class]	30
Dimensions [H x W x D mm]	552 x 380 x 434 [free-standing] 524 x 381 x 434 [built-in]
Input [watts]	75
Consumption [kWh / 24 h]	1.1
according to ISO 7371 at 25°C / 7°C	
Cabinet	Built-in or free-standing Anthracite steel cabinet
Door	Glass door with aluminium frame and magnetic door seal

Options

- Lock
- Left or right door hinge
- LED door opening control system with remote control

■ RH 449 D / LD

40 L – standard door

Compact outside, spacious inside: 40-litre-class miniBar with two door racks and two metal shelves. Tall bottles, mini-bottles, cans – everything has its place and is attractively presented.

Configuration

- 1 interior door rack for mini-bottles, adjustable in height and depth
- 1 interior door rack for up to 1.5-litre bottles, adjustable in depth
- Both interior door racks with adjustable bottle separators
- 2 metal shelves, adjustable in height and tilt
- 1 covered ice tray
- 40 mm high feet [including set of 12 mm screw-down feet]
- Infrared sensor controlled LED interior light [RH 449 LD only]

RH 449 D / LD

Capacity [litre class]	40
Dimensions [H x W x D mm]	582 x 422 x 440 [free-standing] 554 x 423 x 440 [built-in]
Input [watts]	65
Consumption [kWh / 24 h]	0.8
according to ISO 7371 at 25°C / 7°C	
Cabinet	Built-in or free-standing Anthracite steel cabinet
Door	Integrated handle Magnetic door seal

Options

- Lock
- Handle
- Additional miniature bottle rack
- Left or right door hinge
- LED door opening control system with remote control
- Glass door

■ RH 449 LDAG

40 L – glass door

Elegant, user-minded design: 40-litre-class miniBar with glass door. Two adjustable shelves to display a wide selection of miniBar items. Infrared sensor controlled LED interior light. Variable door hinge as standard.

Configuration

- 2 adjustable metal shelves
- 1 covered ice tray
- 40 mm high feet [including set of 12 mm screw-down feet]
- Infrared sensor controlled LED interior light

RH 449 LDAG

Capacity [litre class]	40
Dimensions [H x W x D mm]	582 x 422 x 440 [free-standing] 554 x 423 x 440 [built-in]
Input [watts]	75
Consumption [kWh / 24 h]	1.1
according to ISO 7371 at 25°C / 7°C	
Cabinet	Built-in or free-standing Anthracite steel cabinet
Door	Glass door with aluminium frame and magnetic door seal

Options

- Lock
- Left or right door hinge
- LED door opening control system with remote control
